- The additional inheritance allowance expires 3 years after the date of death or 180 days after administration of the estate is complete.
- For an investor who died **on or before 5 April 2018** the allowance is equal to the value of the ISA on the date of their death even if the value at closure is greater.
- For an investor who died **on or after 6 April 2018** the allowance is either equal to the value of the ISA on the date of their death, or the value at the closure of the account depending on which is higher.

It's important to write the asset code and name clearly inside the boxes provided using capital letters – we use the code to determine your asset choice. You can find details of all investment options and asset codes at fidelity.co.uk

Should your investment choice be unclear, this may cause a delay in processing the instruction.

Any monies that are in excess of the inherited ISA allowance will be held in your cash management account awaiting your instruction. If you don't have a cash management account we will open one for you.

Should any of your chosen assets pay income, we follow your existing preferences for income payments on your existing ISA.

If this instruction is to set up a new ISA, income will automatically re-invest. You will find further income options available online. Please go to fidelity.co.uk. for more details.
